25 November 2019

To,  
The Principal and Coordinator NSS,  
Lohia Government College, Churu.

Subject: *“Collaboration with Lohia Government College Churu for social causes”*

Dear Sir,

With reference to the aforementioned subject, on behalf of IN-DEED Foundation, I would like to propose collaboration with NSS Lohia College Churu, to promote volunteerism among students of your prestigious institution. IN-DEED Foundation is a registered Trust that works to reduce the Education Deficit and Bridge the Digital Divide by providing improved education quality, digital skills and 21st century skills to government school students and rural youth. Most of our programs and activities are implemented by dedicated student volunteers from reputed institutions of Rajasthan such as RTU Kota, NIFT Jodhpur, MIMT Kota and MBM Engineering College Jodhpur.

We would like to partner with NSS Lohia College Churu to engage your students under the guidance of their faculty members to participate in volunteering efforts for education, counselling, motivation, personality development, communication skills, digital skills and other activities for government school students and rural youth.

Thanks for inviting me to deliver a session on World Volunteers Day, 05 December 2019. Volunteerism to work on social causes is highly useful for students benefitting them in several ways enhancing their confidence and employability. We are hopeful that students and faculty at Lohia College would be interested in volunteerism and we can start a 2-year partnership for the aforementioned purpose. Your support and encouragement would be instrumental in making the program a success.

Yours sincerely,

Vikram Rajola  
Chairman
